Erzurum is dedicated to sustainable development, with efforts focused on reducing environmental impact and enhancing energy efficiency. The city has implemented a Sustainable Energy and Climate Action Plan, crafted with community input, targeting emissions reduction and renewable energy expansion. These initiatives aim to support a greener, climate-resilient future for Erzurum

Erzurum Metropolitan Municipality is promoting sustainability with initiatives like a smart waste management system, renewable energy projects, and eco-friendly public transport. The sensor-based waste system optimizes collection, while investments in solar energy reduce emissions. The municipality is also enhancing transportation with electric buses and improved cycling infrastructure to reduce traffic and improve air quality.
