MOBILITY PATTERNS:

Melikgazi's mobility patterns reveal a significant reliance on private vehicles, which accounts for a substantial portion of daily travel, leading to traffic congestion, especially during peak hours. To improve sustainability, the district is working on expanding its public transportation options and enhancing pedestrian infrastructure, aiming to promote eco-friendly commuting and alleviate traffic issues.

NATIONAL GOVERNMENT

Melikgazi Municipality is focused on sustainable development, prioritizing environmental protection in its governance. The municipality has implemented programs aimed at reducing greenhouse gas emissions, promoting renewable energy sources, and increasing green spaces within the district. These initiatives reflect Melikgazi's commitment to fostering a sustainable and resilient urban environment while enhancing the quality of life for its residents.

Melikgazi Municipality is promoting sustainability through various initiatives, including solar energy projects to harness clean energy, energy-efficient building practices in urban development, and efforts to increase green spaces and urban greenery. These initiatives aim to reduce the district's environmental footprint, promote energy conservation
