LEADING ECONOMIC SECTORS IN ORTAHISAR

Fishery

Agriculture

Industry

ENERGY PRODUCTION

MAIN SOURCES OF ENERGY GENERATED

HYDROPOWER

WIND ENERGY

Joined Global Covenant of Mayors initiative

2025

MOBILITY PATTERNS:

Ortahisar's mobility patterns show local demands within a compact, coastal setting. Private vehicles and minibuses dominate, causing congestion, especially in summer. Limited public transit and narrow streets add to traffic challenges, though pedestrian zones and cycling are being promoted to ease congestion.

Key Interesting Factors

A key Logistics Hub

Fishery

Domestic and international flights

KEY AREAS FOR COOPERATION

Renewable Energy

NATIONAL GOVERNMENT

Ortahisar is committed to sustainable development by promoting eco-friendly tourism and enhancing waste management. The town focuses on increasing renewable energy use, particularly solar power, while implementing strategies to protect natural landscapes and water resources. These efforts aim to balance development with conservation, fostering a resilient community for residents and visitors alike.

Ortahisar is enhancing sustainability through smart waste management and transportation initiatives. The town has implemented a sensor-based waste collection system to optimize efficiency and boost recycling. Additionally, Bodrum is promoting electric minibuses and cycling to reduce reliance on private vehicles, aiming to improve air quality and create a more sustainable urban environment.
