POPULATION: 54.994 (2024)

GEOGRAPHIC LOCATION OF ACIPAYAM

City AREA: 1,628 km²

AEGEAN REGION, TOTAL AREA:

-90,251 square km

Joined Global Covenant of Mayors initiative

2025

MOBILITY PATTERNS:

In Acipayam, public transportation mainly includes buses and minibuses that serve local commuters. However, private vehicles continue to be the primary mode of transport, causing congestion during busy hours. To improve mobility and promote more sustainable commuting, the municipality is working to expand public transport options and increase the frequency of services.

NATIONAL GOVERNMENT

Acipayam is dedicated to sustainable development, with efforts focused on reducing environmental impact and enhancing energy efficiency. The city has implemented a Sustainable Energy and Climate Action Plan, crafted with community input, targeting emissions reduction and renewable energy expansion. These initiatives aim to support a greener, climate-resilient future for Acipayam

Acipayam Municipality is promoting sustainability through targeted waste management projects. These include waste cleaning efforts and systems that improve collection, reduce litter, and support recycling across the district. By focusing on cleaner public spaces and more efficient waste handling, the municipality aims to protect the environment, enhance public health, and raise awareness about responsible waste practices within the community.
