COORDINATION W/ INTERNATIONAL PARTNERS

NATIONAL GOVERNMENT

Şanlıurfa Metropolitan Municipality is committed to sustainable development with a strong focus on solar energy and effective waste treatment practices. By investing in solar power, the city aims to reduce greenhouse gas emissions and promote clean energy use. Additionally, improved waste management systems support environmental protection and public health. These efforts contribute to building a more resilient and livable urban environment for residents.

Şanlıurfa Metropolitan Municipality is promoting sustainability through solar energy projects, water-efficient irrigation for agriculture, and eco-friendly tourism that preserves cultural sites like Göbekli Tepe. These initiatives aim to support clean energy, conserve resources, and balance tourism with environmental protection. A more resilient city will be managed with the Climaax and Pathways2Resilience projects carried out by the Şanlıurfa Metropolitan Municipality.
