COORDINATION W/ INTERNATIONAL PARTNERS

NATIONAL GOVERNMENT

Sakarya Municipality is focused on sustainable development, prioritizing environmental protection in its governance. The municipality has implemented programs aimed at reducing greenhouse gas emissions, promoting renewable energy sources, and increasing green spaces within the district. These initiatives reflect Sakarya's commitment to fostering a sustainable and resilient urban environment while enhancing the quality of life for its residents.

Sakarya Municipality is promoting sustainability through clean energy use, improved waste management, and low-emission transport. Projects focus on reducing emissions with solar and wind energy, boosting recycling through better waste systems, and encouraging public transit to cut traffic and pollution. The city also works with stakeholders to assess climate risks and enhance urban resilience.
