Joined Covenant of Mayors
initiative

2022

MOBILITY PATTERNS:

In Ardahan, private vehicles dominate daily commutes, causing significant congestion, especially during peak hours. Public transport options, including buses, are available but limited, leading to a reliance on cars. To improve sustainability, the municipality is expanding public transport services and developing cycling infrastructure to reduce traffic and enhance air quality.

COORDINATION W/ INTERNATIONAL PARTNERS 

NATIONAL GOVERNMENT 

Ardahan Municipality is steadfast in its commitment to sustainable development, aiming to achieve balanced growth across environmental, economic, and social domains. This involves formulating comprehensive strategies and projects that prioritize the protection of natural resources and the minimization of environmental impacts. By signing the Mayors' Covenant and launching a climate adaptation action plan, the municipality showcases its dedication to combating climate change.

Ardahan Municipality is focusing on sustainable energy initiatives by utilizing local resources such as hydropower and wind energy. These projects aim to preserve the region's ecosystems while reducing reliance on fossil fuels, promoting a cleaner and more sustainable future. Through these efforts, Ardahan is integrating green energy into urban development.
