City AREA: 755 square kilometers

LEADING ECONOMIC SECTORS IN BANDIRMA

Animal Husbandry

Agriculture

Industry

Joined Global Covenant of Mayors Initiative

2023

MOBILITY PATTERNS:

Bandırma's mobility patterns reveal a significant reliance on private vehicles, which accounts for a substantial portion of daily travel, leading to traffic congestion, especially during peak hours. To improve sustainability, the district is working on expanding its public transportation options and enhancing pedestrian infrastructure, aiming to promote eco-friendly commuting and alleviate traffic issues.

NATIONAL GOVERNMENT

Bandırma Municipality is focused on sustainable development, prioritizing environmental protection in its governance. The municipality has implemented programs aimed at reducing greenhouse gas emissions, promoting renewable energy sources, and increasing green spaces within the district. These initiatives reflect Sultanbeyli's commitment to fostering a sustainable and resilient urban environment while enhancing the quality of life for its residents.

Bandırma Municipality is advancing sustainability through initiatives like solar energy projects to reduce emissions, water-efficient irrigation systems to support agriculture while conserving resources, and eco-friendly tourism that aims to preserve the region's natural and cultural heritage. These efforts are designed to stimulate economic growth while ensuring long-term environmental protection and community well-being
