POPULATION: 198.335 (2023)

GEOGRAPHIC LOCATION OF BODRUM

City AREA: 650 square km

AEGEAN REGION, TOTAL AREA

120.000 square km

LEADING ECONOMIC SECTORS IN BODRUM

Maritime Industry

Tourism

Agriculture

Joined Global Covenant of Mayors Initiative

2020

MOBILITY PATTERNS:

ENERGY PRODUCTION

MAIN SOURCES OF ENERGY GENERATED

SOLAR POWER

WIND ENERGY

Bodrum's mobility patterns show a mix of local and tourist-driven demands within a compact, coastal setting. Private vehicles and minibuses dominate, causing congestion, especially in summer. Limited public transit and narrow streets add to traffic challenges, though pedestrian zones and cycling are being promoted to ease congestion.

Key Interesting Factors

- Tourism
- Real Estate
- Maritime Industry

KEY AREAS FOR COOPERATION

- Renewable Energy
- Sustainable Transportation
- Sustainable Tourism

TOPICS OF INTEREST:

- Business Models and Financing Schemes:
- Financing Sustainability Projects

Bodrum Municipality signed the Covenant of Mayors in 2020 and is preparing its Sustainable Energy and Climate Action Plan (SECAP) to enhance energy efficiency and reduce emissions

Commitment to Sustainable Development and Innovative Solutions

COLLABORATION

- COORDINATING W/ LOCAL STAKEHOLDERS
- COORDINATION W/ INTERNATIONAL PARTNERS
- NATIONAL GOVERNMENT

Bodrum is implementing various projects in line with sustainable development goals. The 15-Minute Cities Project aims to improve quality of life through bicycle and pedestrian infrastructure. Through MedCities and Prima Front Ag Nexus projects, environmentally friendly practices and climate-friendly agricultural methods are being developed. Additionally, innovative solutions like solar energy systems and "Climate Banks" are being introduced to combat climate change.

Bodrum is enhancing sustainability through smart waste management and transportation initiatives. The town has implemented a sensor-based waste collection system to optimize efficiency and boost recycling. Additionally, Bodrum is promoting electric minibuses and cycling to reduce reliance on private vehicles, aiming to improve air quality and create a more sustainable urban environment.

POTENCIAL AREAS

- WASTE MANAGEMENT
- ECO-FRIENDLY TRANSPORTATION

Implementation of Sustainable Projects

Just in 15-Minutes Project (2024)

Climate Bench (2023)
