POPULATION: 215,172 (2023)

GEOGRAPHIC LOCATION OF ÇİĞLİ

AEGEAN REGION, total area: 87.000 square km

City AREA: 139 square km

Joined Global Covenant of Mayors Initiative

2021

MOBILITY PATTERNS:

In Çiğli, public transit, including buses and ferries, accommodates many commuters, but private vehicles remain the main mode of transportation, leading to congestion during peak hours. To combat this, the municipality is enhancing public transport options, increasing bus frequency, and improving ferry services to encourage more sustainable commuting.

NATIONAL GOVERNMENT

Çiğli is dedicated to sustainable development, with efforts focused on reducing environmental impact and enhancing energy efficiency. The city has implemented a Sustainable Energy and Climate Action Plan, crafted with community input, targeting emissions reduction and renewable energy expansion. These initiatives aim to support a greener, climate-resilient future for Çiğli

Çiğli Municipality is promoting sustainability with initiatives like a smart waste management system, renewable energy projects, and eco-friendly public transport. The sensor-based waste system optimizes collection, while investments in solar energy reduce emissions. The municipality is also enhancing transportation with electric buses and improved cycling infrastructure to reduce traffic and improve air quality.
