# MARMARIS

Member of CoM Member,

MLGP4Climate platform

**POPULATION: 96.768(2023)**

## GEOGRAPHIC LOCATION OF MARMARIS

City AREA: 906 square km

## AEGEAN REGION, TOTAL AREA

120.000 square km

## LEADING ECONOMIC SECTORS IN BODRUM

Maritime Industry

Tourism

Agriculture

## Joined Covenant of Mayors initiative

2024

## MOBILITY PATTERNS

Marmaris mobility patterns show a mix of local and tourist-driven demands within a compact, coastal setting. Private vehicles and minibuses dominate, causing congestion, especially in summer. Limited public transit and narrow streets add to traffic challenges, though pedestrian zones and cycling are being promoted to ease congestion.

## ENERGY PRODUCTION

## MAIN SOURCES OF ENERGY GENERATED

SOLAR POWER

WIND ENERGY

### KEY INTERESTING FACTORS

Tourism

Maritime

Yachting Industry

### KEY AREAS FOR COOPERATION

Renewable Energy

Sustainable Transportation

Sustainable Tourism

### TOPICS OF INTEREST

Business Models and Financing Schemes

## Commitment to Sustainable Development and Innovative Solutions

### COLLABORATION

COORDINATING W/ LOCAL STAKEHOLDERS

COORDINATION W/ INTERNATIONAL PARTNERS

NATIONAL GOVERNMENT

Marmaris is committed to sustainable development by promoting eco-friendly tourism and enhancing waste management. The town focuses on increasing renewable energy use, particularly solar power, while implementing strategies to protect natural landscapes and water resources. These efforts aim to balance development with conservation, fostering a resilient community for residents and visitors alike.

Marmaris is enhancing sustainability through smart waste management and transportation initiatives. The town has implemented a sensor-based waste collection system to optimize efficiency and boost recycling. Additionally, Marmaris is promoting electric minibuses and cycling to reduce reliance on private vehicles, aiming to improve air quality and create a more sustainable urban environment.

### POTENCIAL AREAS

WASTE MANAGEMENT

ECO-FRIENDLY TRANSPORTATION

## Implementation of Sustainable Projects

Solid Waste Collection Project (2022)

Sustainable Urban Transportation Project (2023)
