LEADING ECONOMIC SECTORS IN KONYA

Industry

Agriculture

Renewable Energy

MOBILITY PATTERNS:

ENERGY PRODUCTION

MAIN SOURCES OF ENERGY GENERATED

SOLAR POWER

WIND ENERGY

In Konya, public transit, including buses and trams, serves many commuters, but private cars remain the main mode of transport, causing peak-hour congestion. Expanding public transit could help reduce reliance on personal vehicles and improve traffic flow.

KEY INTERESTING FACTORS

- Agricultural Powerhouse
- Industry
- Renewable Energy

KEY AREAS FOR COOPERATION

- Agricultural Innovation
- Industrial Development
- Renewable Energy

TOPICS OF INTEREST

- Business Models and Financing Schemes:
- Financing Sustainability Projects

Konya Municipality signed the Covenant of Mayors in 2022 and is preparing its Sustainable Energy and Climate Action Plan (SECAP) to enhance energy efficiency and reduce emissions

Commitment to Sustainable Development and Innovative Solutions

COLLABORATION

COORDINATING W/ LOCAL STAKEHOLDERS

COORDINATION W/ INTERNATIONAL PARTNERS

NATIONAL GOVERNMENT

Konya is dedicated to sustainable development, with efforts focused on reducing environmental impact and enhancing energy efficiency. The city has implemented a Sustainable Energy and Climate Action Plan, crafted with community input, targeting emissions reduction and renewable energy expansion. These initiatives aim to support a greener, climate-resilient future for Konya.

Konya is enhancing sustainability through initiatives like a smart waste management system that uses sensors to monitor waste levels, optimizing collection routes and increasing recycling. The city is also investing in renewable energy projects and upgrading public transport options to reduce emissions. Collectively, these efforts aim to decrease reliance on private vehicles, improve air quality, and enhance urban living conditions in Konya.

POTENCIAL AREAS

ECO-TRANSPORT

RENEWABLE ENERGY

WASTE MANAGEMENT

Implementation sustainable projects

Air Quality Improvement Project (2020)

Vegetable Waste Oil Collection Project (2024)
