Joined Covenant of Mayors
initiative

2022

MOBILITY PATTERNS:

In Küçükçekmece, heavy reliance on private cars leads to traffic congestion, especially during peak hours. Public transport, including minibuses and buses, faces high demand but limited capacity. To address this, the municipality is expanding pedestrian pathways and promoting cycling infrastructure to reduce traffic and encourage sustainable mobility options.

Küçükçekmece Municipality signed the Covenant of Mayors in 2022 and is preparing its Sustainable Energy and Climate Action Plan (SECAP) to enhance energy efficiency and reduce emissions

Commitment to Sustainable Development and Innovative Solutions

COLLABORATION

- COORDINATING W/ LOCAL STAKEHOLDERS
- COORDINATION W/ INTERNATIONAL PARTNERS
- NATIONAL GOVERNMENT

Küçükçekmece Municipality is focused on sustainable growth, prioritizing renewable energy, particularly solar power, and improving waste management. Efforts to protect natural areas and reduce urban development's carbon footprint are central to its strategy. The municipality's initiatives aim to balance urbanization with environmental conservation, fostering a livable environment and resilience for the future.

Küçükçekmece is advancing sustainability through smart waste management and green transport initiatives. The municipality employs sensor-based waste collection to optimize efficiency and recycling rates. To reduce emissions, electric buses are being introduced, while the development of cycling infrastructure encourages eco-friendly commuting. These efforts aim to improve air quality, reduce the city's carbon footprint, and create a more sustainable urban space for its residents.

POTENTIAL AREAS

- WASTE MANAGEMENT
- ECO-FRIENDLY COMMUTING
- IMPROVEING AIR QUALITY

Implementation of Sustainable Projects

**KÜÇÜKÇEKMECE RESIDENCE PROJECT
(2024)**

**SOLID WASTE COLLECTION FACILITY
(2023)**
