

BEŞİKTAŞ  
BELEDİYESİ

**BESIKTAS**  
Member of CoM Member,  
  
MLGP4Climate platform

**POPULATION: 169.000 (2023)**

**GEOGRAPHIC LOCATION OF BESIKTAS**

**City AREA: 19.4 square km**

**MARMARA REGION, total area:**  
67.000 square km

**Joined Covenant of Mayors  
initiative**

**2015**

**Real Estate**

**Finance&Banking**

**Tourism**

**MOBILITY PATTERNS:**

In Beşiktaş, public transit, including buses and ferries, accommodates many commuters, but private vehicles remain the main mode of transportation, leading to congestion during peak hours. To combat this, the municipality is enhancing public transport options, increasing bus frequency, and improving ferry services to encourage more sustainable commuting.

**ENERGY PRODUCTION**

**MAIN SOURCES OF ENERGY  
GENERATED**

**NATURAL GAS**

**RENEWABLE ENERGY**

**Key Interesting Factors**

Tourism

Private Sector Hub

Strategic Location

**KEY AREAS FOR COOPERATION**

Eco-Friendly Transportation

Urban Development

**TOPICS OF INTEREST:**

Business Models and  
Financing Schemes:

Financing Sustainability  
Projects

**Beşiktaş Municipality signed the Covenant of Mayors in 2015 and is preparing its Sustainable Energy and Climate Action Plan (SECAP) to enhance energy efficiency and reduce emissions**

## Commitment to Sustainable Development and Innovative Solutions

### COLLABORATION

COORDINATING W/ LOCAL STAKEHOLDERS

COORDINATION W/ INTERNATIONAL PARTNERS

NATIONAL GOVERNMENT

Konya is dedicated to sustainable development, with efforts focused on reducing environmental impact and enhancing energy efficiency. The city has implemented a Sustainable Energy and Climate Action Plan, crafted with community input, targeting emissions reduction and renewable energy expansion. These initiatives aim to support a greener, climate-resilient future for Konya.

Konya is enhancing sustainability through initiatives like a smart waste management system that uses sensors to monitor waste levels, optimizing collection routes and increasing recycling. The city is also investing in renewable energy projects and upgrading public transport options to reduce emissions. Collectively, these efforts aim to decrease reliance on private vehicles, improve air quality, and enhance urban living conditions in Konya.

### POTENCIAL AREAS

ECO-TRANSPORT

RENEWABLE ENERGY

WASTE MANAGEMENT

## Implementation of Sustainable Projects

Air Quality Improvement Project (2020)

Vegetable Waste Oil Collection Project (2024)
